

Success by
Quality

The Aquamatik

Autotex has been manufacturing various products for Textile, Automobile, Insecticides, Water Pump Accessories and Poultry equipments since 1988. In this time span our company has grown as leading manufacturers of engineering products of above various industries with immense quality standards of the products nature.

Aquamatik Pump Controllers are developed by innovation. It is built for a quiet running operation, Non return valve built-in pressure gauge, pressure switch and electronic control with dry running protection. Variable starting pressure from 1.2 bar to 1.5 bar. Our Pump controllers are tested for 50,000 cycles which is more than 3 years of life in normal working conditions.

Aquamatik Float Switch is extensively used for all types of water level controllers. It is water proof and stays above the water level. It is also resistant to corrosion and abrasion. The float switch is endurance tested mechanically and electrically for 100,000 switching.

Automatic Pump Controller

- Rated Voltage: 1~220 / 230 / 240V
- Frequency: 50 / 60 Hz
- Max current / Max power: 10A / 1.5 KW
- Starting pressure setting: 1.2 - 1.5 bar
- Max working pressure: 10Bar
- Protecting rating: IP65
- Max Working Temperature: 60° C

Aquamatik Float Switch

- Rated Voltage : 1~220 / 230 / 240V
- Rated Current : 10A
- Frequency : 50/60Hz
- Protection rating : IP 67
- Max working temperature : 60°C

Aquamatik pump controller is successfully tested up to 50,000 cycles which is more than 3 years of life in normal working conditions.

Performance Guaranteed.

Aquamatik®
The Global Water Technics

Aquamatik float switch is endurance tested mechanically and electrically for 100,000 switchings which is more than 5 years of normal working conditions.
